

# WESTERN LIBERAL.

FRIDAY, JUNE 21, 1889.

"Everybody beats Red."

Max Schots was in town Sunday.

Are there any "Spiders" in town?

"Did you go to the picnic Sunday?"

John G. Mason has been in the city this week.

H. Ambler made a trip to Deming last Friday.

The Railroad saloon has mounted a new sign this week.

O. R. Smyth returned from a trip to Silver City Saturday.

Fred Hoot, the San Simon cattleman, was in town this week.

Chicken dinner will be served at the Owyhee house Sunday at 3 p. m.

Wise served for dinner and milk three times a day at the Owyhee house.

Frank Proctor went down to Deming this week to show off his sore finger.

Mrs. Ralph Fetterly and Miss Zena returned from their visit to Pinos Altos Tuesday.

At the Owyhee house: Breakfast from 6 to 11; dinner from 11 to 8; supper from 4 to 8.

John Maroney writes from Mesa, Arizona, that he is going to come here and open a shoe shop.

Dan Nolan claims to have seen a squaw at Duncan Saturday and wonders how she got off the reservation.

The Rev. H. J. Farnsworth will preach at Shakespeare next Sunday morning and at Lordsburg in the evening.

A ranchman named Quillen came in from the Gila Saturday to have Dr. Simpson reduce a dislocated shoulder.

Chas. Suter is pulling the passenger train between here and Tucson in place of Ed. Kingley who died last week.

Dr. Simpson has purchased a new case of metallic splints costing about \$60. Now is the time to get your leg broken.

John A. Miller and H. B. Ailman were in the city Friday on their way to Clifton to attend to their mining interests.

John Shen, owner of the Arizona copper company, was in town Wednesday on his way out on a business and business trip.

The Hart Brothers' and Nicol Brothers' cattle, sold to Boyce of Montana, were shipped Sunday. There were two train loads.

A. S. Walker, of Walker Fowler & M. Vite, the Galveston coal and coke firm, was in town Sunday on his way to Clifton on business.

The following were the lucky numbers in the lottery drawing last Tuesday: 61, 695, 63, 311, 44, 824, 26, 728, 43, 938, 89, 816, 71, 108, 24, 127, 94, 970, 38, 585, 21, 180.

Col. B. Paul of Tucson was in the city this week. The colonel still considers his chances for being appointed United States marshal for Arizona as being very good.

Recently a Lordsburg business man gave another Lordsburg business man, in discharge of business, his check for \$75. Business man No. 2 endorsed the check and handed it to a Deming merchant. The Deming merchant endorsed the check and deposited it in the bank. About this time it was discovered that the check bore no signature. The two Lordsburg men were trying to get the Deming man to come out and shake dice to see who is the "careless one."

Wednesday there were a couple of Mexicans in town with cigars to sell. The cigars, according to the sample, were a fine, long filler cigar and worth \$75 of any one's money. They sold several thousand at \$5, and took the evening train for the west. Yesterday one of the "long filler" cigars, not a sample, was cut open and the filling was found to consist of scraps of tobacco, alfalfa and sawdust. The same men made a trip to Clifton, although with what luck we know not.

The meeting of those interested in the town site matter was held at Ambler's opera house last Saturday night. P. H. Greaves was chosen chairman, and B. W. Clark secretary. The territorial law in regard to townsites was read by Judge Greaves, but like many other territorial statutes it was so conflicting in its various provisions that no real nor real could be made to it. A resolution was passed requesting Judge Holmes to call a meeting to elect trustees, and the meeting adjourned trusting the trustees to make some sense out of the law.

Our readers will remember that last March Bowden G. Tate, attorney at law, struck the town. He stayed here a couple of weeks, ran in debt for his board, borrowed his tobacco and hummed his drinks. Some money was advanced him to go to Las Cruces to attend to some legal business. He started for Las Cruces and has not been seen in this section since. Last Friday morning Mr. Tate made his appearance at Memphis, Tennessee, and was immediately arrested for forgery. It seems that in January Tate was at Dyerburg, Tennessee, and showed a letter and check for \$50 both purporting to be written and signed by H. L. Gibson, of Memphis. On the strength of the letter he succeeded in getting the check cashed. He then started west and played the same game at Dallas. He has been circulating around the country since he was here and at last has brought up in the Memphis jail.

## Johnston's Paul Harvey.

At the Johnston disaster there were heroes who immortalized themselves. Among them were a nephew of Joseph G. Parks of this place. Of him the New York Press says:

John G. Parks, immortalized himself by the heroic ride through the Conemaugh Valley to warn his townsmen of coming danger on the fateful Friday night. The gallant young engineer, seeing that the South Fork dam must give way, sprang into the saddle and dashed at break-neck speed down the valley, shouting, "The dam is breaking! Run for your lives!"

Hundreds of people were saved by this warning and many more would probably have escaped death had his shouts been heeded. Parks reached the South Fork station and telegraphed the tidings to Johnston, ten miles below, fully an hour before the fearful thirty-foot wall of water broke over the doomed town.

The water was already at his horse's heels when he climbed up the mountain side and saw the torrent rush past. "The rise in the water," he said, "was simply phenomenal."

Mr. Parks is a Philadelphia by birth and who graduated as a civil engineer from the University of Pennsylvania three years ago. He is a nephew and namesake of General John G. Parks, who commanded the Ninth Army Corps during the war and who is now commandant at the West Point military academy.

Ward & Courtney have gone to the Pecos country and taken a contract on the new ditch. The importance of the development now in progress in the Pecos valley cannot be overestimated as relating to similar undertakings elsewhere in the territory. Land which is now worth comparatively little is being made more valuable than the best lands of the prairie states, and at comparatively small cost. There are many thousands of acres of such land in other parts of the territory where the opportunities for development are equally as good as on the Pecos, only needing capital and energy to utilize them. Where properly developed the resources of New Mexico, in this direct line, are almost incalculable. There are single counties in New Mexico with almost as many natural resources as all of the New England states taken together, and with the same number of people, and same amount of capital employed, the population of the territory would be many times the present number.

Lieutenant C. P. Johnson, formerly of Fort Grant but now stationed at Camp Apache, who has charge of the 2700 and old White Mountain Apaches on the reservation there was visiting his Wilcox friends this week. These Indians are entirely self-supporting, and have been, ever since they were removed from San Carlos to Apache a number of years ago. At the time they were removed to Apache, the agreement was that if allowed to return to their old home they would not call on the Government for any assistance. Notwithstanding this, Lieutenant Johnson thinks the Government would be acting wisely if it made a small appropriation each year for the purpose of purchasing farming machinery for these Indians, as they would then be much more contented, and the danger of outbreaks would be greatly lessened. We think so, too.—Wilcox Stockman.

The Rev. Edward S. Cross, in charge of the Episcopal mission at Silver City and Deming, will hold service at Deming on the evening of Thursday, June 27th, and at Clifton on the following evening, also at Carlsbad on the morning and evening of Sunday the 30th inst. All are cordially invited.

Several of the Southern Pacific freight engineers are talking of moving their families here. They have as much time here as at El Paso or Tucson and the weather is much more comfortable here than in either of those two places.

Mr. Chas. McCall, night hostler at the round house leaves to night for San Francisco to take unto himself a wife. He expects to shortly return with her here for permanent residence.—Citizen.

H. Ambler has purchased the building known as Black's hall and as the Ranch saloon, consideration \$600. The building will hereafter be known as Ambler's opera house.

Last week Thursday Mike McNichols boarded a west bound train at Stein's Pass and went to Tucson. He staid in Tucson a day and then took the train for California.

There will be a meeting of the fire department to-night to make arrangements for Fourth of July.

Not a fit, but an expression of delight. "About a week ago," says a Los Angeles, Cal., druggist, "a Chinaman came in with a lame shoulder. I sold him a bottle of Chamberlain's Pain Balm and guaranteed that it would cure him. He came in again last night, as soon as he got inside the door, began to swing his arm over his head like an Indian club swinger. I thought the blamed fool had a fit, but he finally stopped long enough to say: 'Medicine verry fine, verry fine; alle mine me feel plenty good.' Chamberlain's Pain Balm is without an equal for sprains, rheumatism, aches, pains or lame back. For sale at Eagle drug store."

The Meredith & Ailman case has taken a new turn which leaves the creditors a little deeper in the soup than they were before. S. T. Harkey was appointed receiver and J. Goldman, the assignee, was instructed to hand over to the receiver all property in his possession belonging to Meredith & Ailman. He agreed to do so the next day. The next day he came into court and said he had been robbed the previous night of a number of notes and valuable papers. An examination showed that about \$100,000 worth of collateral were gone. The fact of the matter is that Assignee Goldman has been playing poker and this was the reason an application was made for a receiver. There is opposition being made to the confirmation of Harkey, it being charged that he has an interest in a Sweeney school, and some of the wicked Silver Citizens claim that a Sunday school receiver is no more to be trusted than a poker playing assignee.

Recently a telegram was sent to Colton to a telegraph operator named Bruce to report at Lordsburg for duty. An operator named Booth got the dispatch and concluded that was a good chance for a job and so came down. He had the night desk and worked three nights. It is the custom of Agent Pelton to leave \$10 in the drawer to enable the night man to make change for tickets sold for the morning train. On the third morning Pelton had to go over town and hunt his man up to get the key to the drawer. On opening the drawer he found the money gone. Mr. Operator confessed he had got away with the bundle and turned up \$3.35 which he had left. He signed a pay voucher and managed to scrape up enough money to square himself and was turned loose. A new operator named Belinger, who is bald-headed enough to be honest, now has the night desk.

Carls came this week reading: "Edgar M. Hand, R. Amie Shepard, married, Wednesday, June 13, 1889, Coronado, California." The many friends of the bride and groom in this section of the territory wish them unbounded happiness in their new life.

One of Dr. Simpson's large apple trees died suddenly this week. The doctor did all that medical science could suggest to save its life, but in vain. He suspects foul play and intends to have an inquest held.

The Silver City papers don't like the change of venue law as about 300 witnesses will drink whiskey and play faro at Las Cruces, who are the legitimate victims of Silver City sports.

Mr. Moore, the post master at Bradshaw, Va., after reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy, concluded to try a small bottle of it. He says: "I used it in two cases for colic and three for diarrhoea with perfect satisfaction. One dose gave relief in every case but one, that was a bad case of colic and required the second dose. I have handled a great deal of patent medicine as agent and for my own use, but never tried any that gave as good results as Chamberlain's Colic, Cholera and Diarrhoea Remedy." For sale at 25 and 50 cents per bottle at Eagle drug store.

History of ARIZONA and NEW MEXICO

From the Earliest Period to the Present Time.

By HERBERT HOWE BANCROFT.

Just published in 1 vol., the most thrilling and romantic true history ever written. Land of the Pueblo! Land of Mines and Mirages! The charm of mystery and the brilliant reality.

AGENTS WANTED Everywhere. The book will sell better than any novel. It is a model of history-writing. Every intelligent and patriotic man will have a copy. No country ever had done for it such work as this at any early period of its history, and the people have only to look at the book to be satisfied of this. Who will not buy a magnificent history of his country by an author of the first reputation, if he never buys any other book in the world? Ask for exclusive territory and go out and make

\$500 or \$1,000

Apply immediately or the opportunity will be lost, for every foot of this whole region will soon be occupied by active and reliable workers.

Neither experience nor capital is required to engage in this enterprise, as the book will sell itself if properly presented, and we give our Agents 30 days' time in which to deliver and collect before paying us. Address

THE HISTORY CO., 728 Market St., San Francisco, Cal.

The Silver City officers have risen in the anxiety of their virtue and driven out of the town one of the fair but frail deities of the hill. The Sentinel urges the officers to continue the good work and drive all of her class out of town. Does not the Sentinel know that if this was done it would reduce several of the "prominent citizens" of our county capital to the dire necessity of going to work? Has it the heart to desire such a catastrophe?

"It is all right," is what Mr. Geo. C. Henry, a Burlington, Iowa, druggist says, of Chamberlain's cough remedy. Mr. Henry ought to know, as he has sold over 300 bottles of the remedy, during the past winter. Coughs, colds, croup and whooping cough are speedily cured by it. For sale at Eagle drug store.

THE NEWS

ONE CENT

CHICAGO DAILY NEWS

The Real Secret of the unparalleled success of THE CHICAGO DAILY NEWS may be found in two distinguishing characteristics, which more than anything else have contributed to its remarkable growth.

FIRST.—It is a Daily Paper for Busy People.

The people of the busy West appreciate keenly the necessity of an intelligent knowledge of the world's daily doings, but they are too busy to waste valuable time in searching through a cumbersome "blanket-sheet" newspaper for the real news of art, literature, science, religion, politics, and the thousand and one things which make up modern civilization. They want news—all the news—but they don't want it concealed in an overpowering mass of the trivial and inconsequential. It is because THE CHICAGO DAILY NEWS is "all what and no chaff," that its circulation is over "a million a week."

SECOND.—It is an Independent, Truth-telling Newspaper.

The people demand a fair, impartial, independent newspaper, which gives all the news, and gives it free from the taint of partisan bias. With no mere political ambition to gratify, no "ax to grind," the impartial, independent newspaper may truly be "guide, philosopher and friend" to honest men of every shade of political faith; and this is why THE CHICAGO DAILY NEWS has today a circulation of over "a million a week."

THE CHICAGO DAILY NEWS now adds to these two comprehensive elements of popularity, a third, in its unparalleled reduction of price to ONE CENT A DAY.

It is always large enough, never too large. THE CHICAGO DAILY NEWS is for sale by all newsdealers at One Cent per copy, or will be mailed, postage paid, for \$3.00 per year, or 25 cents per month. The farmer and mechanic can now afford, as well as the merchant and professional man, to have his metropolitan daily.
